CAREER OBJECTIVE

Motivated and detail-oriented graduate seeking an entry-level software development role where I can apply my programming and problem-solving skills to build real-world applications, contribute to team projects, and continuously strengthen my technical expertise.

WORK EXPERIENCE

Python Development • Internship

CodSoft, Virtual

Mar 2026 - Apr 2026

- 1. Built multiple GUI-based applications using Python (PyQt6, Tkinter), focusing on user-friendly design and smooth interaction.
- 2. Implemented core functionalities such as CRUD operations, game logic, real-time updates, and dynamic score tracking across different projects.
- 3. Designed and optimized application features including search functionality, input validation, and calculation systems to enhance usability and performance.
- 4. Developed interactive interfaces with additional features like animations, theme switching, and history tracking to improve user engagement and experience.

EDUCATION

Bachelor of Computer Applications (BCA), Computer Science & Technology

G H Raisoni Institute Of Engineering And Technology, Nagpur

2023 - 2026

CGPA: 8.64/9

Senior Secondary (XII), Maharashtra State Board Of Secondary And Higher Secondary Education

Science

2023

Mahatma Gandhi Jr College

Percentage: 62.33%

Secondary (X), Maharashtra State Board Of Secondary And Higher Secondary Education

Mahatma Gandhi English Medium And High School

2021

Percentage: 79.20%

PORTFOLIO

PROJECTS

[Job Track ↗](#)

Sep 2026 - Oct 2026

An AI-powered job tracking and resume analysis platform designed to simplify career preparation. Features automated job description extraction using FastAPI and Gemini AI, resume skill-overlap analysis, and Supabase-powered authentication, file storage, and application progress tracking.

[Contact Book ↗](#)

Mar 2026 - Apr 2026

A full-featured desktop contact management system supporting create, read, update, and delete operations with instant search. Built with Tkinter for a native desktop experience, featuring persistent local data storage and a clean, intuitive interface.

[TempChat ↗](#)

Jun 2026 - Aug 2026

A real-time temporary chat platform built for private, ephemeral conversations. Users can create rooms, share room codes, exchange messages and files, send voice messages, and use reactions without creating an account. Rooms support admin-controlled expiry, allowing conversations and shared content to automatically disappear when the room expires.

[Calculator UI ↗](#)

Mar 2026 - Apr 2026

A modern desktop calculator built with PyQt6 featuring a persistent expression history panel, dynamic dark/light theme toggle, robust input validation, and full keyboard shortcut support — delivering a professional-grade user experience.

Rock Scissors Paper Game ↗

Mar 2026 - Apr 2026

A polished single-player game built against a computer AI, featuring animated move feedback, a live scoreboard, round-by-round history tracking, and smooth UI transitions — all delivered through a clean Tkinter interface.
